Alexander Linn Hospital

Sussex, New Jersey

Founded 1918

Dedication Ceremonies

1972 Addition

April 15, 1972

ARCHITECT — FERRENZ & TAYLOR, NEW YORK, N. Y.

GENERAL CONTRACTOR —

MAHONEY TROAST CONSTRUCTION CO., CLIFTON, N. J.

Alexander Linn Hospital was founded in 1918 and admitted its first patient in 1920 in a three-story frame building, formerly a private school. In 1949 an addition was erected to modernize the obstetrical, x-ray and laboratory departments. Again, in 1957, a further addition provided new medical-surgical beds, dietary, operating suite, administration and service departments. At this time the original frame building was demolished.

The addition being dedicated today will provide 74 additional beds to increase the number of beds to 117 including medical-surgical, pediatric, obstetric and intensive care beds. A new mechanical plant, central supply and service facilities are available in the new building. A most modern building, the addition is fully air-conditioned and future expansion upward has been planned and provided for. The people of Sussex County may be proud to have this hospital dedicated to promoting the best in hospital and medical care for the area.

Department Heads

Administrator

Kenneth E. Meredith, F.A.C.H.A.

Director of Nursing

Mildred Lewis, R.N.
